

I would like to share my opinion regarding your plan to change our local radio station which will effect my listening to a certain radio station, KLOVE. I don't believe this is in the best interest of me or my family and will strongly disagree with this. Why change what is good. KLOVE is much needed and supported on local levels around the world. In our world today, we need more positive and encouraging music to listen to and you interferring with this ministry will be a great disservice to me and millions of other people who listen and depend on this radio ministry. I will be praying, along with others that this will not take place. God bless you all.
